HOME SCREEN

The home screen displays both a menu bar with various selections (individualized to each user) as well as a statistics box containing the number of unprocessed events and violations currently in the queue.

WORKLOAD | FIND | REPORTS | HEARING MANAGER | HELP | PROFILE | LOGOUT

STATISTICS

Unprocessed Events:	278
Unprocessed Violations:	0

OPENING WORKLOAD

Each user selects their daily workload

Select >Workload

Workload

WORKLOAD | FIND | REPORTS | HEARING MANAGER | HELP | PROFILE | LOGOUT

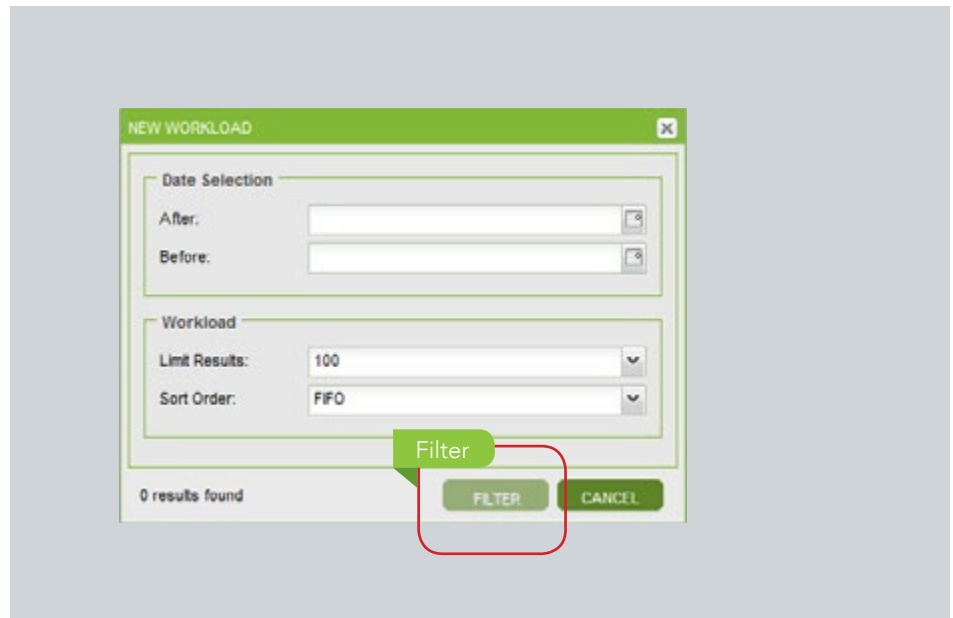

STATISTICS

Unprocessed Events:	278
Unprocessed Violations:	0

SELECTING EVENTS TO REVIEW

Each user can select their daily workload for review based upon time frame, number of results and sorting order.

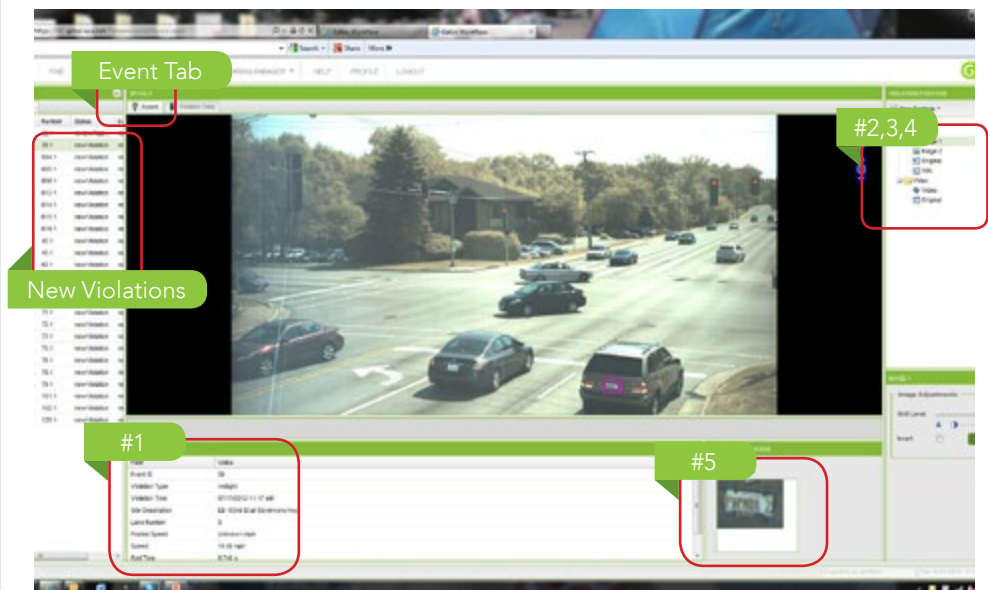

Select >Filter to display the list of new events that need to be reviewed.

REVIEWING EVENTS

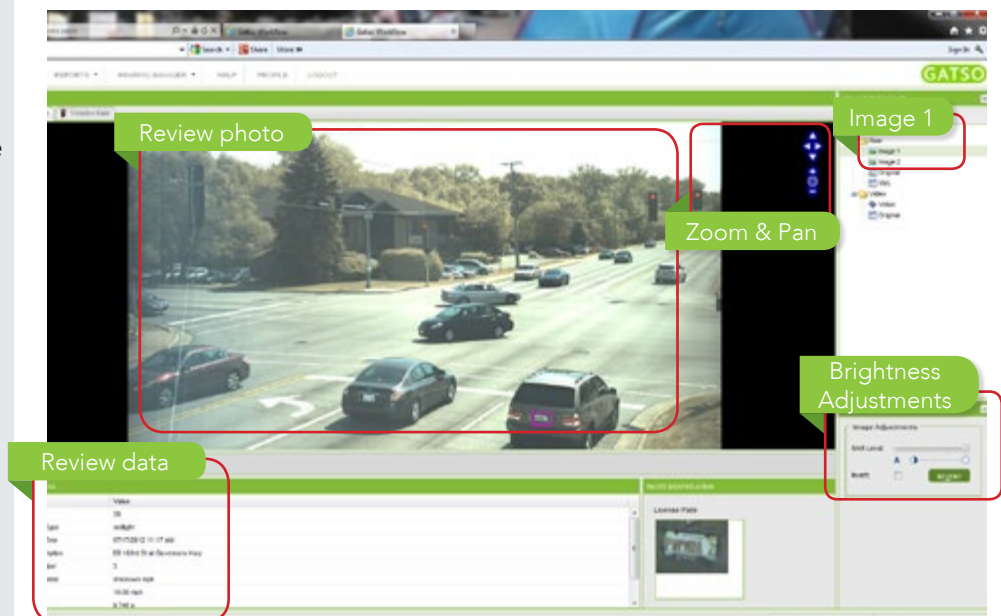

Overview of Review Steps

1. Review Event Data
2. Review Image 1 (before the stop bar)
3. Review Image 2 (after the stop bar)
4. Play video recording to review evidence
5. Compare license plate crop to event data – verify match

REVIEWING IMAGE 1

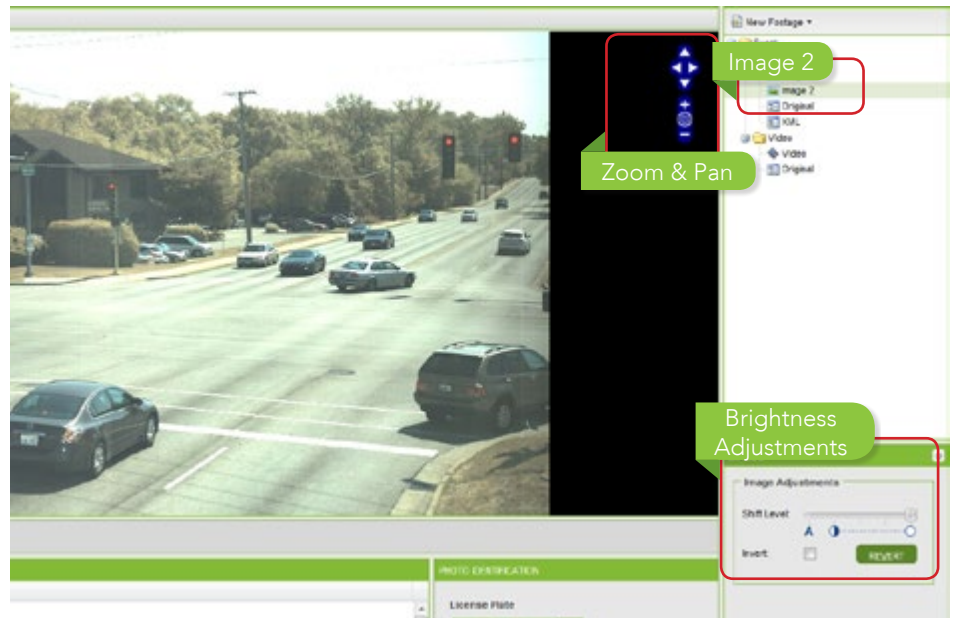

Select >Image 1; Review the image before the stop bar utilizing zoom, pan & brightness adjustments as needed, and accompanying data under image.

REVIEWING IMAGE 2

Select >Image 2; Review the image of the vehicle after the stop bar, utilizing zoom and brightness adjustments as needed.

Note: A vehicle might not be present in image 2 for right turn on red violations, indicating that the vehicle did not stop (see video clip).

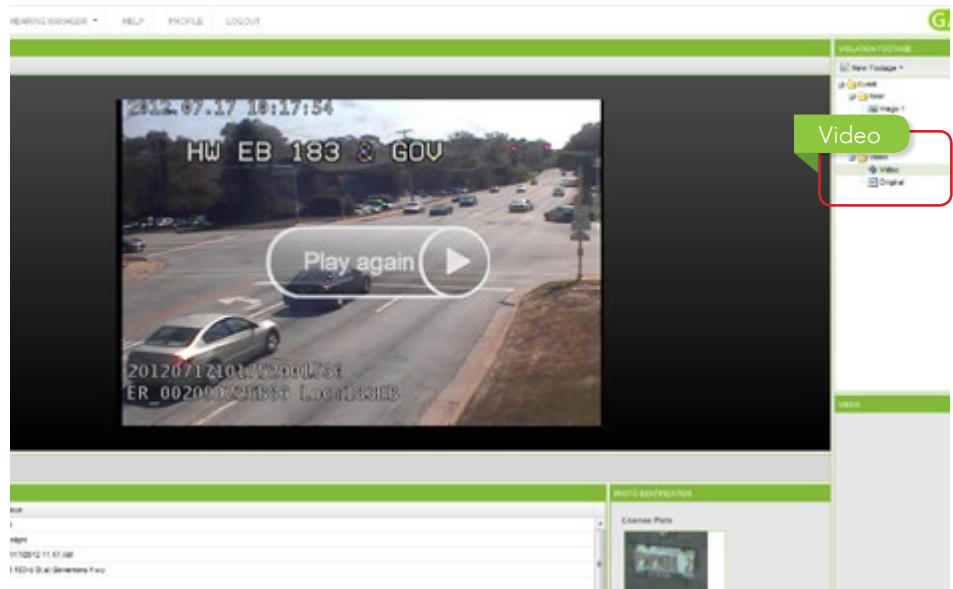

REVIEWING THE VIDEO

Review the video to confirm the sequence of events.

Select >Video from the right hand side of the screen.

Review the 6 second clip to confirm sequence of events.

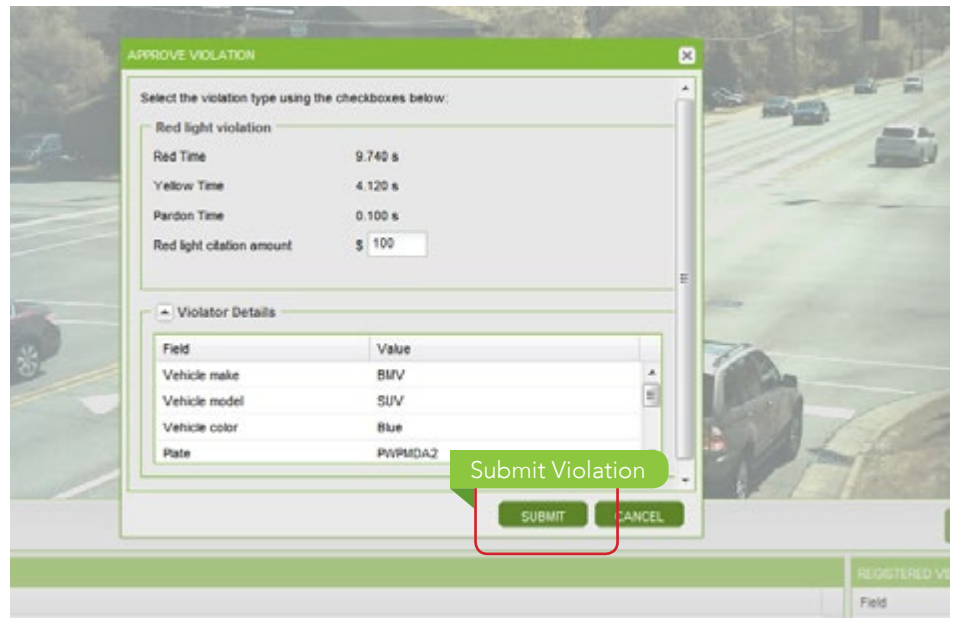

APPROVING THE VIOLATION

Select >Approve Event if you agree with the photographic and video evidence presented to you.

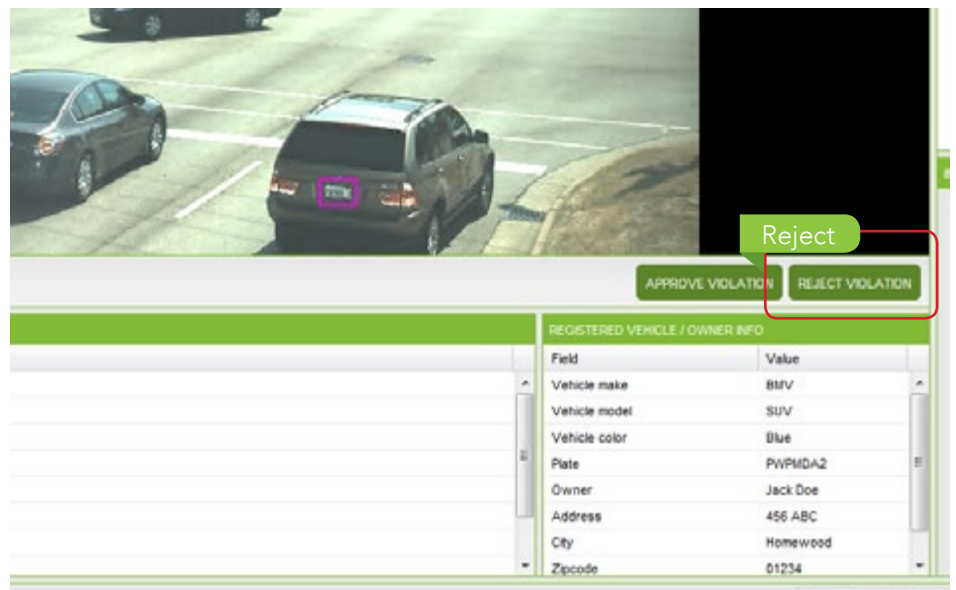

REVIEWING APPROVAL SCREEN

Select >Submit if you agree with the violation details shown in the box.

REJECTING THE VIOLATION

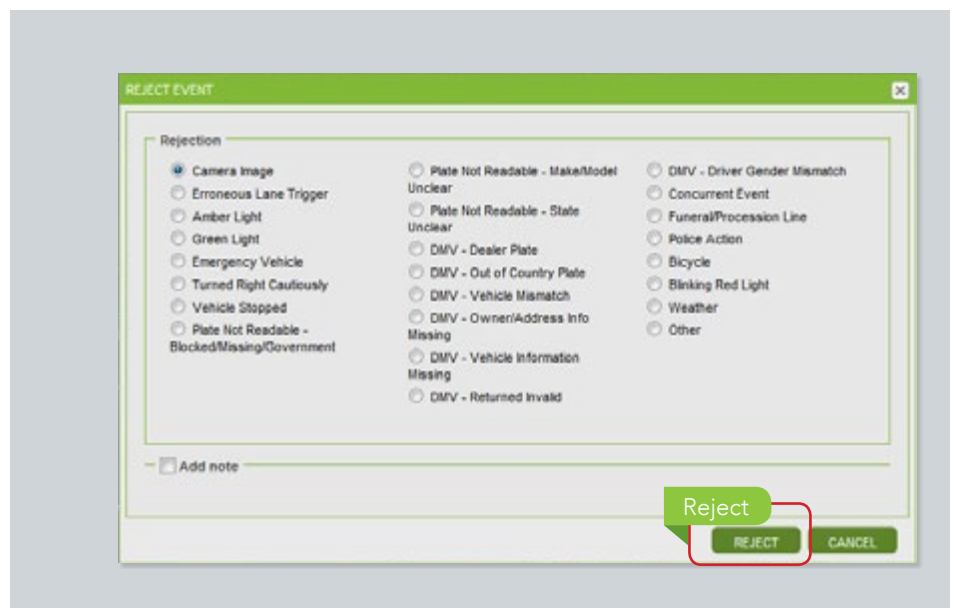

Select > Reject Event if you do not agree with the photographic and video evidence presented to you.

REJECTION REASONS

Choose the appropriate rejection reason and add a note if applicable.

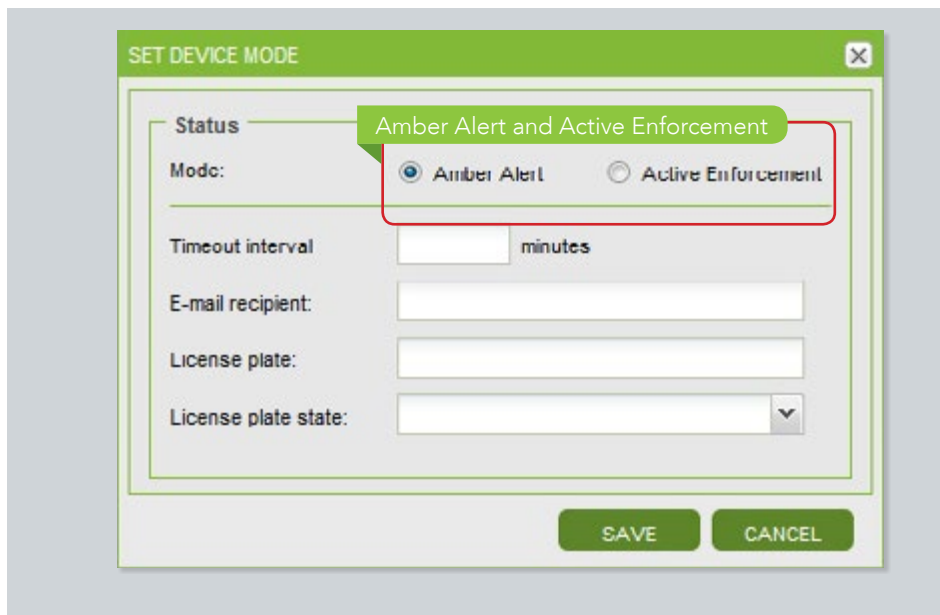

Select >Reject, no citation will be issued.

SET DEVICE MODE

Xilium also includes additional administrative features, based on user profiles, including device modes such as; AMBER Alert and live stream.

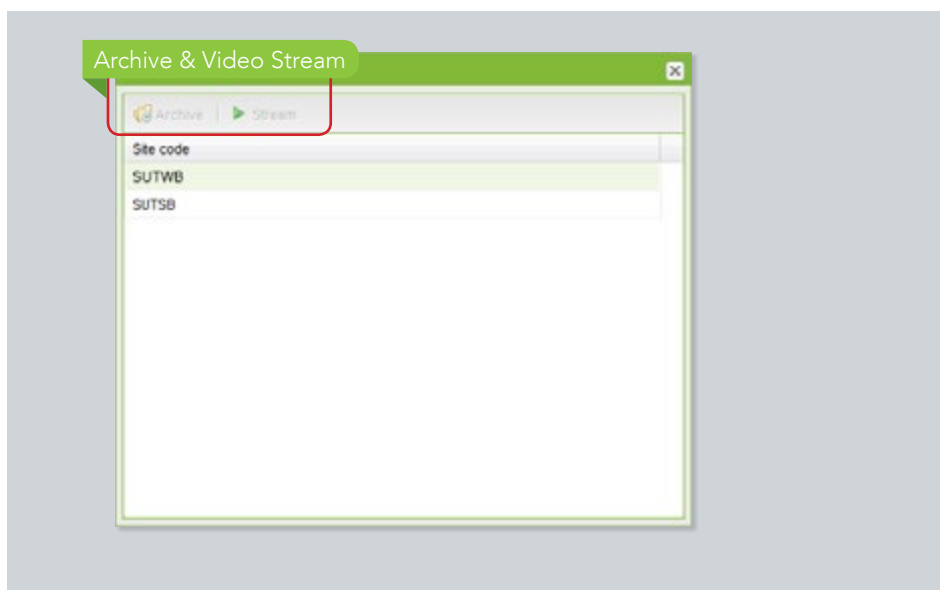

Click >Administration from the menu bar to access these features.

VIDEO ARCHIVE AND LIVE STREAM

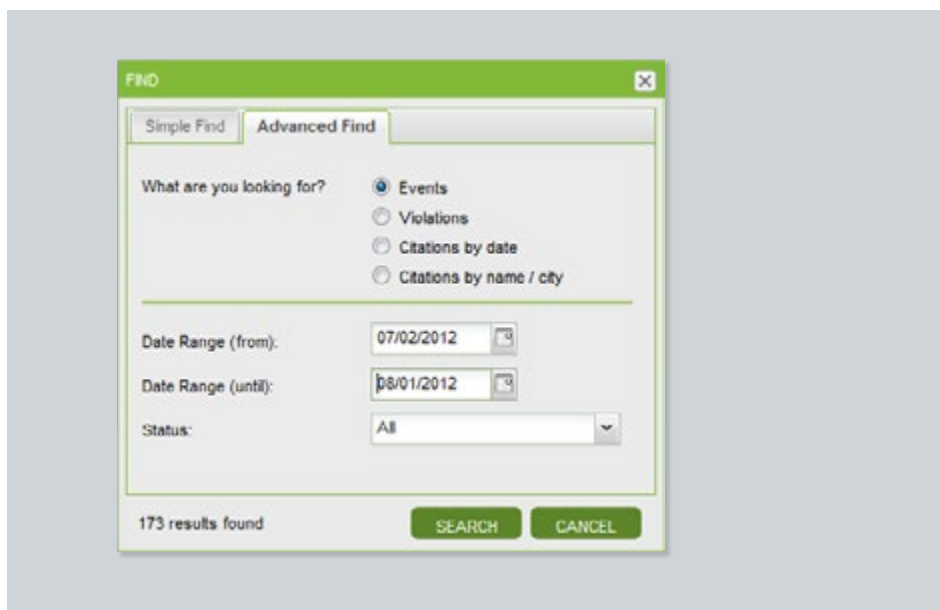

This administrative function allows you to access a camera (by site code) and view archived video or live streaming video.

Click >Administration from the menu bar to access these features.

FIND FUNCTION

Users can also utilize the 'FIND' function to search for various queues including new events or rejected events for example.

USER PROFILES

Other administrative functions include setting up and editing user profiles.

Click >Profile from the menu bar to access these features.
